## SCHOOL AT A GLANCE

S.H. High School, established in 1991 under the auspices of the Sacred Heart Congregation, has become a beacon of education in Baloda Bazar, Chhattisgarh. The school was nurtured by the visionary leadership of Rev. Sr. Pelagia SH the Provincial Superior of Pala, and Rev. Sr. Sabeen SH, the Mission Superior of Ujain. Initially operating from a rented space, the school soon built its own infrastructure, laying the foundation for a thriving academic community. Under the guidance of its first principal, late Rev. Sr. Michael Mary SH, the school grew from its infancy to Higher Level. During the initial stage, the school was affiliated to the M.P. Board under the tenure of Rev. Sr. Lucyas, the school successfully changed its affiliation to the CISCE Board, a process she worked tirelessly to accomplish.

The first batch of ICSE students graduated in 2011, marking a significant milestone in its history. In 2024, the school expanded its horizons by offering Senior Secondary education in the Science stream, with 22 students enrolled in its inaugural batch. Beyond academics, the school is dedicated to the holistic development of its students, fostering both intellectual growth and emotional well-being. In a remarkable effort to uplift the local community, the school has also adopted a nearby village, providing free education to underprivileged children, embodying its mission of social responsibility and inclusive progress. The school operates a self-help group aimed at fostering the economic development of the supporting staff.

## MESSAGE

I am happy to know that the Sacred Heart High School, Baloda Bazar, Chhattisgarh, is planning to bring out its annual School Magazine that would provide an opportunity to the students to exhibit their talents and explore their creative potentials. I impart my blessings upon this praiseworthy educative and formative venture and congratulate all concerned.

The driving force behind this initiative is the belief that there is so much of God's goodness in every person and the purpose of education is to bring it out in all its radiance by providing the right ambiance for children to grow and shine. The task of education is to expand the horizons of the students and to bring them from darkness to the radiant world of knowledge, light and truth. The current trend in educational system seeks mostly the academic success and excellence, though important but not enough.

The renowned leader, late Mr. Nelson Mandela said, "Education is the most powerful weapon which you can use to change the world." It is heartening to note that the school has been making steady progress in every respect for the total development of the students by providing an environment that fosters growth in knowledge, learning, leadership and service. Such an all-inclusive system of education is helping the school to become also a Centre of encounter and integration for our multi-cultural and pluralistic society where children of different age, culture, religion, roots and abilities learn to accept and respect their differences and to live as one Family. It is essential for any country to be strong, united and to progress.

It is also important that the students learn not only various skills to thrive and prosper in the increasingly complex world of today but are empowered to live as effective and fully functional individuals. Therefore, it is necessary that teachers and parents cooperate and work together to enhance the students' educational and living experience. It is good to remember here the words of the Lord Jesus Christ who calling us to be the light of the world says: "If then your whole body is full of light, having no part dark, it will be wholly bright, as when a lamp with its rays gives you light." (Luke 11:36)

I earnestly exhort you to maintain the value-based quality of education for building up a new generation with a deep sense of moral and social responsibility to the society and nation at large.

I wish the magazine and its editorial board a great success and God's abundant blessings!

**VICTOR HENRY THAKUR**  
ARCH BISHOP OF RAIPUR

आज 21 वीं सदी में अध्यापन की विधियों और सीखने-सिखाने में आधुनिक एवं तकनीकी प्रयोगों के कारण बहुत परिवर्तन आया है। अब शिक्षा प्रणाली भाषा और क्षेत्रीय सीमा से परे हो गयी है। सीखने-सिखाने के लिए नवीन प्रयोग किए जा रहे हैं, जो शिक्षा को विविध आयाम प्रदान करती है, वहीं तकनीकी शिक्षा को भी महत्व दिया जा रहा है। अब छात्र बल प्रयोग से नहीं, खेल-खेल में नवीन प्रयोगों के साथ शिक्षा ग्रहण कर रहे हैं। शिक्षा सहज, सुलभ स्वरूप में हमारे बच्चों को उड़ान भरने के लिए पर्याप्त अवसर प्रदान कर रही है।

इसी तारतम्य में सेक्रड हॉर्ट हाई स्कूल, बलौदाबाजार ने हमारे अंचल में अवस्मरणीय कार्य किया है। हमारे ननीहालों को विद्यालय में सरल सहज अंग्रेजी माध्यम से आगे प्रतियोगी चुनौतियों के लिए तैयार किया जा रहा है।

Sacred Heart High School has been a profound academic and social journey for me. The school's strive for excellence is present in the amazing and dedicated teachers and staff who have been a significant positive role model in my experience. I would like to thank my school for all the opportunities and mentoring.

Respected Sir,  
 As I sit down to write this letter, I am filled with feelings of the school some flooding back with memories and gratitude. The school has been more than an institution to me, it was a nurturing ground that transformed me from a shy girl into a confident professional. I am forever indebted to my dear teacher, who on the day of my opening of teaching in school, were first when my school accepted me as a teacher and encouraged me to grow at my own pace. My teachers throughout the period in my own when I doubted it my myself they saw something in me and I had yet to see in myself, and it is because of their guidance that I was able to dream of a career in medicine.

My sports teacher, each lesson and each experience taught me that although I live not in a modern world, I am a girl with determination. My teachers taught me my own nature was not a limitation, but a unique strength and I grew with everything with it. Their values have stayed with me and continue to guide me as I strive to make a difference in my patient's lives.

I am thankful to my teachers who believed in me and the entire staff of Sacred Heart for the foundation, support and success that has been my journey. I am grateful to my school for being the place that allowed me to dream in my own way. I am honored to be an alumna of this wonderful school and I hope to make you proud in all that I do with sincere gratitude and respect. I would like to say this is the best place ever where I have spent 12 years of my life.  
 Thankyou everyone.

# Voices of Our Family

Through out my career I worked in four different private institutions. I started my service in a mission school and retired finally from a mission school that was Sacred Heart High School where I worked for about nine years. I felt like a family among the teachers as well as students. I had a good time learning about hard work, devotion and loyalty. I wish the school may prosper under the blessings of Lord Almighty and under the guidance of management and staff.

With sweet memories  
S.A. Wary.

Sacred Heart High School is one of the best schools in Baloda Bazar. Both of my children studied here. The school has been instrumental in shaping their personality and future endeavours through holistic approach. The school pedagogy not only focuses upon academics, it also lays equal emphasis on co-curriculum and extra-curriculum activities, physical fitness and above all instilling students with moral values.

' मैं जिज्ञासा साहू (11वीं) व तेजस्वी साहू (5वीं) का पिता ब्रह्मान सिंह साहू मेरे दोनों बच्चों प्रारंभिक शिक्षा से अब तक अवधानरत हैं। सेक्रेट हार्ट स्कूल पिछले 30 वर्षों से बलौदा-बाजार में उच्च शिक्षा दक्षक के रूप में तरदान स्वरूप बच्चों व पाठकों को सौभाग्य से मिला है। यह बच्चों को न सिर्फ उच्च शिक्षा देता है, बल्कि सर्वांगीण विकास को जोड़ते हुए अच्छे शिक्षा, समाज, आदर्श व स्वावलंबी बनने की प्रत्येक सोपान (सीढ़ी) को अपने अनुभव एवं परिश्रम से नींव मजबूत करता है।

यह इंग्लिश मिडियम स्कूल ICSE स्कूल के रूप में सोने में सुहना के स्वभाव में प्राप्त अंतर्राष्ट्रीय विद्यार्थ्याभ्युत्थ में अपना गरिमा बनते हुए हमारे बच्चों को आधुनिक दिशा दिख है। यहाँ पर बच्चों विभिन्न क्षेत्रों में सफल होकर नाम रोशन कर रहे हैं।

मैं गायत्री का आभारी हूँ। K.G.1 A की पालक हूँ। मेरी बेटा विगत वर्ष में आपके सेक्रेट हार्ट स्कूल में अध्ययन रत है।

स्कूल ही बच्चों का दुसा घर होता है। क्योंकि कक्षा अपना अधिकांश समय यहाँ बिताता है। यह बच्चों का व्यक्तित्व निर्माण भी करता है। मुझे खुशी एवं गर्व है कि मेरी बेटा पर के सबसे प्रतिबद्ध अध्ययन सेक्रेट हार्ट हार्ड स्कूल में पढ़ती है।

अन्य स्कूलों के विपरीत सेक्रेट हार्ट हार्ड स्कूल केवल पाठ्य पुस्तक की शिक्षा पर ध्यान केंद्रित नहीं करता है। यह अपने बच्चों के समग्र विकास पर जोर देता है। सेक्रेट हार्ट हार्ड स्कूल में विभिन्न पाठ्य-नर गतिविधियाँ भी सम्पन्न की जाती हैं। सेक्रेट हार्ड स्कूल सभी बच्चों को एक ही पैमाने में नहीं नापता।

सेक्रेट हार्ड हार्ड स्कूल की सबसे अच्छी बात यहाँ का स्कूल मैनेजमेंट और उनका अनुशासन है। जिससे की बच्चों मिलित विद्यार्थी का पालन करते हैं। कक्षा को समझ पर पूरा करते हैं और व्यर्थ कक्षा से दूर रहते हैं। शिक्षक ही वैदिक समाज की नींव होते हैं। सेक्रेट हार्ड हार्ड स्कूल में बहुत ही कुशल अनुभवी और मेधानी स्टाफ है जो कि बच्चों के आत्मविश्वास को बढ़ाते हैं और आगे बढ़ने में मदद करते हैं।

## MEMORIES

Sacred Heart Convent School was the first English medium school of Baloda Bazar started in the year 1931. I am privileged to be the first batch of the school. Earlier the school was situated at Gorden chauri near now bus stand.

Recalling the old fond memories, I am getting the goose bump. I started the journey of my life outside my family by making friends at school. My school was special home to me which taught me to face the difficulties of life ahead. It was the first learning place for me. What I am today is because of the education imparted to me at the very beginning.

I still remember the sacrifice done by sisters who became NUNS and came all the way from Karala to teach us what they got from the land of God's own Kingdom. They really taught the manners, behaviour, etiquettes, punctuality, humility, politeness etc words which are beyond to be described.

I used to eagerly wait to get the school open after long holidays. The routine of my life today in my office is the same as when we used get ready early in the morning, take lunch on time and go back to home after school. This character in me was inculcated by the teachers of my school. We used

to make new friends every year, play during lunch time, make jokes and wait for the games period every week which I miss today to be a student again.

The moral science subject taught me the moral values in my life. The GK subject improved my general knowledge. The special classes to improve handwriting taught me how to read and write which is still one of my fond memories.

The school march past band which was a unique of its own at that time and the four bands red, blue, yellow and green taught us to work in teams and achieve success with full enjoyment.

All the mishaps done during those time will never fade away. We loved each and every moment spent over there as there were the building blocks of our life. Studying in one of the respected and reputed school of Baloda Bazar has helped me a lot personally.

I had never thought that one day my child will embark the journey of his life from the same institute that his father did. I will always be thankful to my school for shaping my personality and carry on the values inculcated by my school to do well in life and make it proud.

THANK YOU FOR EVERYTHING

-- SAURABH PANDA

As I pen down my sincere appreciation and gratitude for nurturing that Sacred Heart High School has given me throughout my time here, I am reminded of the incredible impact that the school has had on my personal and academic growth.

It was Nursery when I first stepped through the doors and having completed my Class 10th from here I feel proud to be an alumnus of such a remarkable school.

I am a Chartered Accountant now and Sacred Heart's foundation of academic excellence has shaped me and led me secure "All India Rank 32" and "All India Rank 35" in 2 levels of my CA exams. I have worked with multi-national companies such as Goldman Sachs and Deloitte.

I look forward for opportunities to collaborate with the Institute to provide guidance and mentorship to the next generation of students.

From the very beginning, Sacred Heart has been dedicated to providing a strong foundation in education, discipline, and values—principles that have shaped not only my children but also countless others who have walked through its doors.

# TOGETHER WE GROW

“We start as seeds, roots reaching deep,  
Through storms and sun, in joy, we keep –  
Beside each other, hand in hand,  
We rise and bloom, a thriving band.

From soil and stone, our dreams arise,  
In laughter, tears, and star – lit skies.  
Together strong, through thick and thin,  
We grow as one, we rise within.

As we journey together through this school year, let's reflect on the important roles each of us plays in creating a thriving learning environment. Parents, teachers, and students each bring unique strengths to our school community, and together, we can foster an environment where everyone grows.

Dear Parents, You are a child's first and most lasting teacher. The values, curiosity, and support you instill at home shape your child's perspective on learning. A child who asks questions is a child who wants to learn. Celebrate their curiosity and show them that learning is a lifelong journey. Provide your child the support they need to try, fail, and try again. With each attempt, they become more confident and resilient.

Dear Teachers, You are mentors, guides, and often a source of inspiration. Each day, you shape the minds and futures of students who look up to you. Show students that it's okay to make mistakes and that learning from them is how we grow. When students see you approach challenges positively, they're likely to adopt the same mindset. Each student learns differently, and a connection helps you discover their unique needs and strengths. A little encouragement and personal attention can go a long way.

Dear Students, You are the reason we're all here. This is your journey, and it's filled with endless possibilities. Each step forward builds your resilience. Be Kind and Respectful. Support each other, be open to new ideas, and treat everyone with respect. Learning isn't just about grades; it's about growth. Celebrate each little success and remember that every effort counts.

Parents, teachers, and students each bring invaluable contributions to our school. When we work together with purpose, we create a community where every individual thrives. We all play a role in fostering a love for learning, building resilience, and nurturing a sense of belonging.

I am grateful to witness the commitment, passion, and care that each of you brings. Let's keep moving forward, supporting one another, and embracing each day as an opportunity to grow—together.

# Reach for the Stars

In halls of learning, bright and wide,  
A world awaits you, side by side.  
Where books and dreams take flight as one,  
The journey's just begun.

Each morning's call, a chance to grow,  
To learn, to wonder, seek, and know.  
Together, hearts both young and wise,  
We reach for stars, we aim to rise.

Though challenges may cross our way,  
We stand as one, come what may.  
With friends and mentors by our side,  
Through every storm, we're a rising tide.

So take each lesson, make it yours,  
Unlock the knowledge, open doors.  
Believe in you, reach for the sky—  
In our school's spirit, soar high!

To all who walk these halls each day,  
Together we can pave the way.  
Let's rise, let's dream, let's dare to try,  
For in our hearts, we'll always fly.

# *Believe ! • It is Achievable*

When you are stuck on a road or you are stuck in a crowded place, it is really hard to see good things might be going around you. But it is important to recognize that not all things are horrible. Here are some reasons. The way you think affects how you feel and how you behave. If you are only thinking about the bad stuff, you feel bad and then you start rejecting positive actions. These negative thoughts can contribute some problems in you and it results in feeling wretched.

Ignoring the good also affects good relationships. If you walk through the road after school/work everyday complaining all the things that went wrong, the listener may be over extended to hear you but not everyone, who listens, will be able to absorb it. This will affect your good relationship. Looking for the good things around you is equal to looking for the positivity. It may help you stay positive, healthier and less stressed.

There are a plenty of opportunities to start cultivating affirmative positive thought and minimizing negative self-thoughts. Don't be pessimistic. They believe that there is nothing to do to change negative thoughts. Bad things can happen. Sometimes we will be disappointed or hurt by the action of others.

"Learn from yesterday, live for today, hope for tomorrow". This is a famous quote by Albert Einstein. Yes, your bad experiences makes you learn life lessons, that you can apply today to yield good future and to succeed in life.

Do more things that bring you real and honest joy. Learn to love the sound of your feet walking away from things not meant for you. Try to find joy in little things in your life. Years later, when you look back, you will realize that they were not small things, but big.

You are brilliant, bright, stunning and profound light. Success can be achieved by those who do not mind failures, but struggle on till the end. When your energy fails, just remember, Rome was not built in a day. This will infuse fresh vigor is your to do good things. Your happiness comes from within, and at is usually connected with your expectations.

Fight for the good things you care about. But do it in a way that will lead others to join you. Think good thoughts, say nice things, do good for other, everything comes back. – That is KARMA. Remember it is you, making your destiny shaping your life and deciding your fate. Whatever your desire, you will get it. Just learn the secret of doing things in a right way.

Learn to like what you are doing, you will soon find that you are not only achieving, but also enjoying at the same time. This brings the real desire to succeed from within.

"Believe ! It is achievable"

## How To Boost Self - Confidence

Building self-confidence is essential for present growth of success. Yet it is a journey that takes consistent effort.

To start, set small goals that build a sense of accomplishment, as success brings confidence.

Along the way, challenge any negative thoughts that may arise by referring them positively. For example replace "I can't" with "I will give it my best".

Embrace your strength by reflecting on your achievements and writing down why you are proud of it is a powerful reminder of your capabilities. Taking care of your physical health also boost you confidence.

Failure is another important part of confidence building. Instead of letting setbacks bring you down, view them as opportunities for growth. It teaches valuable lessons. So, embrace them and keep moving forward.

**Mrs. Shristi Sinha**

## The Ties That Teach

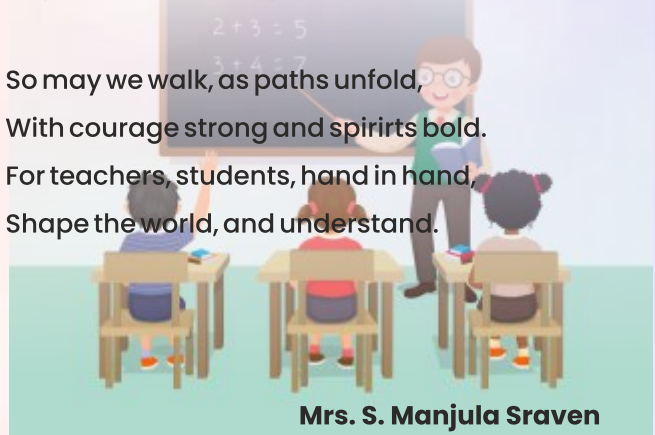

A teacher stands with gentle hand,  
Guiding dreams like grains of sand.  
A student steps with wonder's light,  
Through paths of day and depths of night.

In questions bold and answer bright,  
We share in joy, we strive, we fight.  
Each lesson learned, each story told,  
Is warmth in winter, strength in cold.

The seeds of knowledge planted here,  
May boom and grow year after year.  
For in the halls where wisdom flows,  
A student learns, a teacher grows.

Side by side, we build, we share,  
A bond that's woven through our care.  
In every lesson, both ways we learn,  
Together we lead, together we turn.

So may we walk, as paths unfold,  
With courage strong and spirits bold.  
For teachers, students, hand in hand,  
Shape the world, and understand.

**Mrs. S. Manjula Sraven**

## Fly High In The Sky

When life gives you wings,  
Whole heartedly embrace the wind;  
Soar high with inner swings,  
But don't forget your mankind.

Let you dreams carry you to the sky,  
But don't be petrified of reaching new  
high;

Amalgate valor to face the rocks.

Fly high and never look back.

Life might seem to be full of predicament,  
Unleash your inner adventure;  
Spread your arms and cuddle the muddle,  
And just fly high in the sky.

**Mr. Pramod Soreng**

## Dance : A Beautiful Art

When joy fills your heart,  
Even your bony, clunky limbs  
Become graceful and moves in rhythm  
Just to express the inner feeling

Dance has the special magic  
When there is addition of music  
For it brings tranquillity of heart and mind  
To every forlorn mankind

One dances to be relaxed  
Others to forget their pain and melancholy.  
Some dance to be happy  
And make their soul calm.

## Artificial Intelligence

In the realm of circuits and coded dreams, where login flows in electric streams, A spark of thought , a virtual mind , A dance of data , both swift and kind. From whispered queries to insight deep, A companion in knowledge , we strive to keep with every interaction, a bond we weave, together exploring what we can achieve.

Yet in this world of zeros and ones, Remember the heart in what's begun. For technology thrives when it serves the best, enchancing or journey , fueling our quest.

## The little things in life

Too often we don't realize what we have until it's gone Too often we wait to late to say "I'm sorry, I was wrong." Sometimes it seems we hurt the ones we hold dearest in our heart and we allowed stupid things to tear our lives apart for too many times we let unimportant things get in our mind and by then, it's usually too late to see what made us blind so be sure that you let people know How much they mean to you take the time to say the words before your time is through be sure that you appreciate everything you've got and be thankful for the little things in life that means a lot.

## Science and Society : Bridging knowledge and progress

“Science is not only a discipline of reason but also one of romance and passion” – Stephen Hawking.

Science and society have long shared a symbiotic relationship, each influencing and shaping the other in profound ways. At its core, science seeks to understand and explain the natural world. Its applications, however, go beyond discovery; science equips society with tools to tackle challenges that affect us all. In healthcare, research has led to vaccines, treatments and medical technologies that save lives and improve well-being.

The agriculture, scientific advancements allow us to grow more food sustainably, improving nutrition and reducing hunger. Scientific discoveries lay the foundation for technological innovation, which in turn impacts how we live, work and connect. However, technology's impact is particularly evident in the digital age, where artificial intelligence, data science and automation are all changing how industries operate. Science has a unique role in addressing societal issues such as climate change, inequality and public health. Environmental science, for instance, has been instrumental in highlighting the effects of human activity on the planet and in developing solutions like renewable energy, conservation strategies and sustainable materials.

The relationship between science and society is a powerful one, defined by a shared commitment to progress, innovation, and the well-being of all. As science continues to push boundaries and unveil new possibilities, it is essential that society remains actively engaged, guiding research with ethical values and practical needs. Together, science and society can build a future that is not only technologically advanced but also compassionate, sustainable and inclusive. This partnership will remain the cornerstone of meaningful progress, ensuring that scientific discoveries are not only remarkable achievements but lasting contributions to the betterment of humanity.

# Whispers of The Earth

In the quiet hour, when the Sun bows Low,  
And the sky blushes in a crimson glow,  
I wander beyond where the wild things to sleep,  
To where the heart of the Earth reons deep.

Beneath the trees, with their whispered grace.  
I find the pulse of an ancient place.  
The wind, a song from a time unknown  
Carries secrets the starts have sown.

A river hums with a soft refrain,  
Its water woven with silver rain, and  
each ripple speaks of forgotten dreams,  
of life reborn in its endless streams.

The mountains, guardians of sky and stone  
Their silence loud, their presence known.  
They watch with wisdom etched in their face,  
Each peak of a stir to heaven's embrace.

The soil beneath, warm and alive.  
Breathes in rhyme them, a pulse that thrives,  
and as I kneel. my fingers meet.  
The living earth beneath my feet.

In that moment, I cease to be,  
a solitary soul, lost and free.  
I am the forest, I am the breeze,  
I am the waves of the boundless seas.

Dance with leaves as, they fall from the sky.  
A fleeting moment yet I never die.  
For in nature's touch. I am reborn,  
In the dew of dawn, in the light of morn.

The stars dign with the curve of my hand,  
The universe bends to understand.  
In every blade. In every stone,  
I find the world and I find my own.

Let me fade into this place.  
where time slows down to a gentle pace.  
For in arms of the earth I see,  
The true reflection of eternity.

# Moving For Goal

It was Sunday morning, near about 5 O'clock, I was sleeping with my parents and urging my mother to tell her story but she was not telling and my father said! Do you want to know. my Story? Okay, here I go "I became very excited and started listening to him.

He started, "When I was in class third, one day my friends came to me and asked for the solution of one question. I was unable to tell them, as I was considered as a below average student in my class, they started bullying me. I felt very sad and with that sorrow I decided to become a merit holder and to show them that I was not a student to be bullied. I arranged my time and started studying very hard. I left everything didn't care, what people will say and just concentrated in academics. But my result was not good in third, fourth, fifth, eighth, tenth and eleventh. I was an average student only. Now, my friends were having a lot of things to tease me, but I didn't accept this failure as my result. I worked harder and studies more for Twelfth. This time, it was the last chance to prove myself. When I came back from the final exams of twelfth, I knew that again I will not come in the merit. I was thinking that for so many years I am facing the failure, I will still face it once more, though my exams were good. I told my father to check my result. He checked, and came to me with tears in his eyes saying 'Well done my boy! and hugged me tightly and said that I came first in the whole district. I was overjoyed that my hard work didn't go to waste. Now, I decided to become an IPS officer and for that I started preparing for the competitive exams. In my third attempt I cleared the exam and now I have become the person I wanted to be. The story which started from class Third ended in the third attempt of my dream. From my ten years of experience as an IPS officer, I can say that only hard work and patience can change the world with the determination of doing something unexpected."

"From my story I came to know that to change the world requires a lot of hard work and seems impossible but if I can change myself then it will make the world to change and changing oneself should be the ultimate goal of everyone's life. Once he finished the story, he became my inspiration and like whom now I want to become. I gave my father a tight hug and became speechless for telling him that how much I got inspired with his story!

# Global Warming or Global 'Warning'

Are we heading towards a major catastrophe?

global warming, as soon as we hear this word we suddenly act as if we are too cautious and aware of our environment. Is that so? the answer is an obvious no, today in the era of modern urbanization, there is little to no scope in the minds of people to preserve the precious god gifted environment. While walking and passing by the roads, there is very little possibility of finding a tree instead we can look for some other structures man made. Once a wise man quoted, "It is us who belong to the environment and not its reverse ." . People mess up to realise that this has such a vast and emotional meaning and act as they are going to have their environment conditions forever. Deforestation, water pollution, soil pollution, air pollution, greenery, degradation, wildlife destruction, animal cruelty are all the topics that convey more about the activities of human than the nature. It is we who are destroying the home in which we ourselves are living

The climate is changing, the condition is changing but why not us? Winter is coming soon but there is no coolness in the temperature, because of the global warming. The heat and gases like SO<sub>2</sub>, methane, CO<sub>2</sub>, etc.. greatly harmful are putting so much negative impact that we can witness "the news of the glaciers melting continuously but when will the hearts of humanity melt at this point. When all the glaciers will melt, and we will find floods and floods everywhere, I guess at that time it would be of zero use. People might remember the importance of environment on 5 june, but just then later, they will surely forget the things pretending they woke up from a dream or a freaking hallucination! There is a famous proverb called tit for tat just like now how humans are involved in torturing our Mother Nature in the name of technology and development, there will be one day when all will pay for it. So it our is our duty to join hands and unite together to preserve our environment before it is alarmingly late.

# SKILL DEVELOPMENT

Skill development is the process of identifying the skills gaps in person and ensuring that he or she develops these skills. It determines the ability to achieve goals and better plans.

Imagine a carpenter trying to build a house. He has the raw materials but lacks good wooden working tools. He has however a hammer and a small screw driver, without the right tools like a hand saw, he can't turn these raw materials into house building pieces.

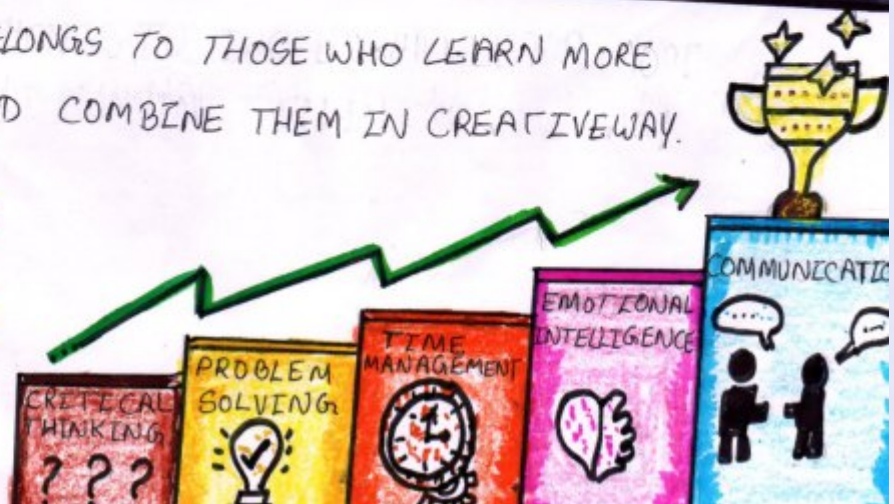

It's the same with goal achievement in good achievement, your skills are your tools. The house is your goal. Just as you need right tools to build a house, you need the right skills to build your goal. Everyone should develop a skill in their life.

Skill Development is the process of developing specific skill to be more efficient and effective when you perform a task.

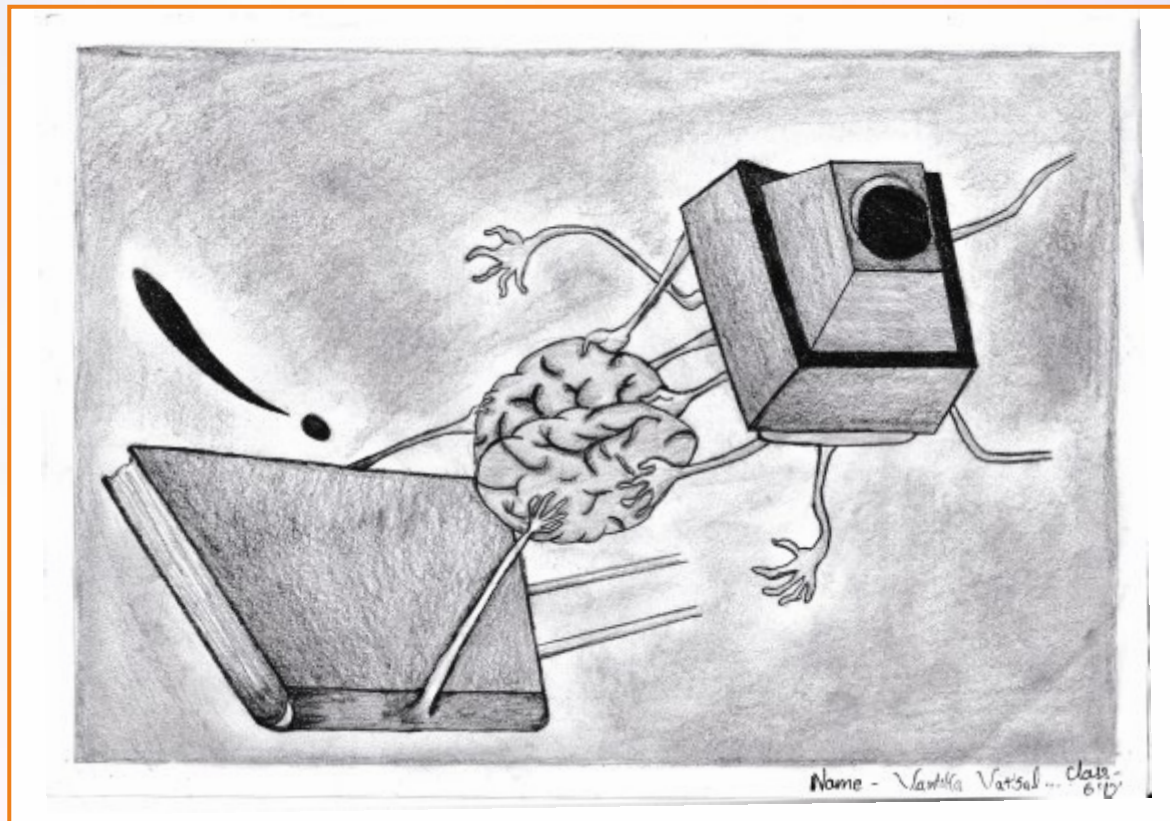

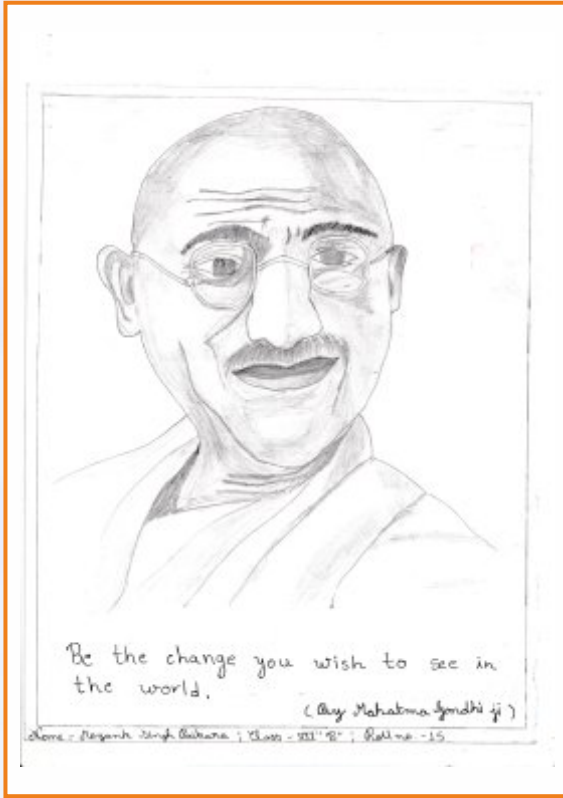

Skill helps people to be aware of their actions.

Self development can help to reduce unemployment. To increase productivity to improve standards of living.

FUTURE BELONGS TO THOSE WHO LEARN MORE SKILLS AND COMBINE THEM IN CREATIVE WAY.

## मेरी आत्मकथा

मैं भारत के अनेक प्रांतों और शहरों से होते हुए छत्तीसगढ़ के एक छोटे से शहर बलौदा बाजार पहुँचा। जो आज एक औद्योगिक नगरी के नाम से प्रसिद्ध है।

यहाँ मुझे गार्डन चौक के पास एक छोटे से किराए के भवन में स्थापित किया गया। मुझे स्थापित करने में संस्था प्रमुख सिस्टर्स का बहुत योगदान और समर्पण रहा है। साथ ही यहाँ के लोगों ने मुझे बहुत सम्मान दिया तथा सराहा।

सिस्टर्स के अथक परिश्रम, बुद्धिमत्ता, दूरदर्शिता तथा लगन से मैं अपने विद्यार्थियों के शिक्षण कार्य को आगे बढ़ाते हुए बढ़ता रहा और जल्द ही कुछ वर्षों बाद मैं अपने स्वयं के भवन में शहर के कोलाहल से दूर शांत एवं स्वच्छ परिवेश में मुख्य शहर से दो किलोमीटर दूर लवन रोड 'जीसस नगर' बलौदा बाजार में प्रतिष्ठापित किया गया। इसे मैं अपना सौभाग्य समझूँ या बलौदा बाजार के निवासियों का स्वर्णिम अवसर समझूँ?

यहाँ मैं अपने विद्यार्थियों को शानदार विशाल सुंदर शाला भवन के साथ- साथ अत्याधुनिक प्रधानाचार्य कक्ष, दफ्तर, प्रयोगशाला, अनुभवी शिक्षक एवं अत्याधुनिक शिक्षण सामग्री तथा विशाल खेलकूद का मैदान उपलब्ध करवाया जो उनके उज्वल भविष्य के लिए वरदान है।

मैंने हमेशा बच्चों को अपनी गोद में आश्रय देकर उनका बौद्धिक के साथ - साथ शारीरिक, मानसिक एवं सांस्कृतिक विकास किया है। परिणाम स्वरूप मेरे विद्यार्थी आज देश में ही नहीं विदेशों में भी प्रत्येक क्षेत्र में अपना परचम लहरा रहे हैं। यह सब देखकर मैं अपने आप में गर्वित महसूस करता हूँ, और इस प्रकार अनेक उतार - चढ़ाव पार करते हुए आज भी अपनी निरंतरता जारी रखते हुए मैं अत्याधुनिक शिक्षण सामग्री की सुविधाओं के साथ इस वर्ष 2024-25 में 'सेक्रेड हार्ट सीनियर सेकण्डरी स्कूल' के नाम से बलौदा बाजार में सम्मान के साथ अपना मान - सम्मान बनाए हुए आगे भी विद्यार्थियों अच्छी शिक्षा और उज्वल भविष्य देने की अपनी कोशिश जारी रखूँगा।

# मेरे अनुभव

सेक्रेड हार्ट हाई स्कूल में शिक्षण मेरे लिए एक अद्भूत अनुभव रहा है। यहाँ, हिंदी और संस्कृत पढ़ाने का मुझे अवसर मिला। यह स्कूल छात्रों के समग्र विकास पर विश्वास रखता है, जिससे शिक्षा केवल शैक्षिक उपलब्धियों तक सीमित नहीं है, बल्कि उन्हें सहृदय और जिम्मेदार नागरिक बनने के लिए प्रेरित करती है।

यहाँ का सहयोगात्मक वातावरण शिक्षकों के व्यक्तित्व और व्यावसायिक विकास को प्रोत्साहित करता है। इस संस्था ने मुझे धैर्य, सहानुभूति और लगातार सीखने का महत्व सिखाया है। इस संस्था का हिस्सा बनकर मैं न केवल एक बेहतर शिक्षिका बल्कि एक बेहतर इंसान बनने की दिशा में भी अग्रसर हुई हूँ।

हर शब्द में बसता है ज्ञान का प्रकाश,  
हर पाठ में छुपा है भविष्य का आकाश।  
शिक्षक के जीवन में तप और त्याग की राह,  
हर दिन बनाता है सपनों का एक नया संसार।

समग्र रूप में, इस विद्यालय में शिक्षण केवल एक नौकरी नहीं, बल्कि एक अभियान है, और इस अभियान का हिस्सा बनना मेरे लिए गर्व की बात है।

श्रीमती रजनी जायसवाल

## तू भी अपनी करता चल

ठोकर अपना काम करेगी, तू भी अपनी करता चल।  
छोटा सा जीवन है रुक मत, तू प्रतिपल बस बढ़ता चल।।

ठोकर अपना काम करेगी, तू भी अपनी करता चल।।

एक दिवस में, वृक्षो पर फल, आते नहीं किसी के।  
अपने बीजों, अपने पौधों पर काम जरा तू करता चल।।

ठोकर अपना काम करेगी, तू भी अपनी करता चल।

दिन और रात का चक्कर है, ये सुख दुख आते जाते हैं।  
दुःखी ना हो, चक्कर समझो, फिर इसके साथ तू चलता चल।।

ठोकर अपना काम करेगी, तू भी अपनी करता चल।

सुख के बिन दुख, दुख के बिन सुख, समझ कभी ना आते हैं।  
सुख दुख, दुख सुख, सुख सुख, दुख दुख के तू पार निकलता चल।।

ठोकर अपना काम करेगी, तू भी अपनी करता चल।

एक गति से चलता केवल, गतिहीन ही इस जग में।  
कभी मंद, कभी तेज गति से, डर मत बस तू चलता चल।।

ठोकर अपना काम करेगी, तू भी अपनी करता चल।
